Registered Trademark of Brewer International

## SHAKE WELL BEFORE USING

Do not add water to  
container

CLEAN UP: Rinse spray tank after each use and flush thoroughly. Dispose of container in proper manner, do not reuse.

CAUTION: *POLY CONTROL*, diluted or undiluted, is very slippery. Use sand, sawdust or similar absorbent material on any spill, pick up with shovel or dustpan.

### CAUTION

KEEP OUT OF REACH OF CHILDREN. Do not take internally. Avoid eye and skin contact. If contact occurs, flush thoroughly with water. If irritation persists, consult a physician. Read and follow all label directions and cautions on all products used.

We warrant that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions. THERE ARE NO OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

## STICKER AND DRIFT CONTROL AGENT FOR PESTICIDES

### ACTIVE INGREDIENTS:

Polyacrylamide copolymer .....	30%
Ingredients ineffective as spray	
Adjuvants .....	70%
TOTAL .....	100%

## NONIONIC

### CAUTION

**AVOID EYE AND SKIN CONTACT.  
DO NOT TAKE INTERNALLY.  
Keep Out of Reach of Children.**

container

1. POLY CONTROL is formulated to aid the control of drift in spray solutions.

SUGGESTED RATES: Use 3–8 ounces per 100 gallons of spray solution. POLY CONTROL should be slowly added to spray solution while agitating. Allow 3–4 minutes of agitation before spraying; longer agitation will increase viscosity.

Rates can vary dependent upon pressure, spray solution, wind speed, nozzle selection and configuration.

2. POLY CONTROL also aids in sinking spray solutions when used at higher rates.

SUGGESTED RATES: Use 1/2–1 gallon per 100 gallons of spray solution. Add slowly while agitating.

3. POLY CONTROL also aids sticking and spreading spray solutions at lower rates.

SUGGESTED RATES: Use 1–3 ounces per 100 gallons of spray solution
