Weedar 64																			

	Do Not Mix
#X	Can be mixed, but will need to be diluted by factor listed
*	Can be mixed, but need to stay within label limits of active ingredient
S	Can be used in combination for treatment of submersed vegetation only.
	Can be mixed and used in combination

	Do Not Mix
#X	Can be mixed, but will need to be heavily diluted/agitated
*	Can be mixed, but need to stay within label limits of active ingredient
S	Can be used in combination for treatment of submersed vegetation only.
	Can be mixed and used in combination
